Dear Bill,

Thank you for taking the time to contact my office regarding these important environmental issues. It is an honor to serve the people of Kansas in the United States Congress and your input is very valuable to me.

Like you, I believe that Americans should be keenly aware of the impact that they have on the environment. Our water cleanliness, land conservation, and national park system are amongst the best in the world. It is our duty to maintain the highest level of quality.

Over the years, Congress and different government agencies have tried to be proactive in enacting guidelines to protect our environment. It is important that we are good stewards of our natural resources for future generations of America. Please know that I will keep your concerns in mind as Congress considers legislation that may impact our environment.

My staff and I are dedicated to providing outstanding services to the constituents of our district. One of the ways we do this is by providing constant updates on my work in Kansas and in Washington through social media.
