

# PARTNER CAUCUS on FIRE SUPPRESSION FUNDING SOLUTIONS

NOVEMBER 21, 2016

The Honorable Mitch McConnell  
U.S. Senate  
Senate Office Building Russell 317  
Washington, D.C. 20510

The Honorable Paul Ryan  
U.S. House of Representatives  
House Office Building Longworth 1233  
Washington, D.C. 20515

The Honorable Harry Reid  
U.S. Senate  
Senate Office Building Hart 522  
Washington, D.C. 20510

The Honorable Nancy Pelosi  
U.S. House of Representatives  
House Office Building Cannon 233  
Washington, D.C. 20515

Dear Majority Leader McConnell, Minority Leader Reid, Speaker Ryan, and Democratic Leader Pelosi,

The undersigned organizations represent the Partner Caucus on Fire Suppression Funding Solutions, comprised of a diverse group of international, national, and local organizations. The caucus seeks a comprehensive solution to the wildfire suppression funding issue. As Congress considers solving the fire funding challenge during the lame-duck session, we urge Congress to ensure that the solution is comprehensive in solving the borrowing issue *and* the erosion of budgets due to increasing wildfire suppression costs.

Many proposals under consideration would ban the practice of transferring additional funds when appropriated funding is spent, but that's only a partial fix in addressing the impacts from rising wildland firefighting costs. These proposals do not address the larger problem of shifting funding from non-fire programs to fire programs, which results from the way firefighting funds are calculated, budgeted, and allocated. As that ten-year average is used to calculate suppression increases, and as budgets remain relatively flat, less is available for forest management and restoration, research, recreation, and other critical private and public land objectives.

A comprehensive fire funding fix would 1) address the continued erosion of agency budgets that results from the increasing ten-year average, and stabilize the level of funding for suppression within the agencies; 2) access disaster funding for extraordinarily costly fires, including those that may be calculated as part of the ten-year average; and 3) significantly reduce the need to transfer from non-suppression accounts and programs. To meet all these criteria, we recommend any fire funding proposal be amended to fund suppression at 70 percent of the ten-year average, similar to the Wildfire Disaster Funding Act, or alternatively, to freeze the ten-year average and access disaster funding for levels beyond that amount. We additionally support accountability measures to ensure cost containment.

# PARTNER CAUCUS on FIRE SUPPRESSION FUNDING SOLUTIONS

NOVEMBER 21, 2016

Thank you for your consideration and for addressing this important discussion of wildfire suppression funding challenges. It is critical that Congress take action this year to solve this critical issue. We look forward to continuing to work together to come to a comprehensive solution.

Sincerely,

Partner Caucus on Fire Suppression Funding Solution
