Washington, D.C. 20510

The Honorable Bill Nelson  
U.S. Senate  
Washington, D.C. 20510

April 23, 2010

Dear Senators Bingaman, Baucus, Whitehouse, Udall, Bennet, Menendez and Nelson,

On behalf of the millions of individuals from across the country that our organizations represent, thank you for sponsoring or co-sponsoring S.1933, *The Natural Resource Climate Adaptation Act*. Your continuing commitment to create American jobs on American lands by safeguarding wildlife and the natural resources on which we rely from the impacts of climate change will be critical over the next two months when the Senate takes up comprehensive clean energy and climate legislation.

With the upcoming introduction of legislative language from Senators Kerry, Graham and Lieberman, we look forward to continuing to work with you in support of natural resource adaptation policy guidance, such as that outlined in S. 1933, which will create American jobs on American lands. A bill that dedicates funding to federal, state and tribal agencies to implement this guidance will put Americans to work today restoring our lands and waters, revitalizing local economies and reinvigorating local communities.

Again, thank you for your support of S. 1933 and for your continued efforts to give our children the same outdoor opportunities and benefits of nature that we enjoy.

Sincerely,

American Rivers  
Association of Fish and Wildlife Agencies  
Defenders of Wildlife  
Endangered Species Coalition  
Izaak Walton League of America
