

2018 Outstanding Publication Awards

The Mississippi Chapter of The Wildlife Society invites submissions to the 2018 Outstanding Publication Awards.

Nominations will be accepted from authors or others for submissions to one of five publication categories:

1. peer-reviewed publication
2. technical publication
3. popular article
4. book
5. media product

Awards will be selected by a committee and will be granted to high-quality publications that represent a significant contribution to wildlife biology with respect to scientific knowledge, application to management, or public awareness and involvement. Awards may not be granted in every category in every year. Self-nominations are accepted.

Nominations must include:

- the publication title, date, and publisher;
- the publication category (peer-reviewed, technical, popular, book, media product);
- the nominator's name, title, agency/organization, and contact information;
- a brief paragraph written by the nominator explaining the reason why the publication should be considered for the award;
- electronic or physical (3) copies of the publication.

Please submit electronic nominations via e-mail attachment [Microsoft Word (.doc or .docx) or Adobe PDF format] to the Outstanding Publication Awards Chair, Garret Street at gms246@msstate.edu with "MSTWS Publication Award Nomination 2018" in the e-mail subject line. For non-digital submissions (e.g., books), contact Garret Street via email prior to submission.

Abstract Deadline: August 15, 2018

Notification By: August 31, 2018
