

NATIVE STUDENT PROFESSIONAL DEVELOPMENT PROGRAM

The Wildlife Society Announces a Professional Development Program for Indigenous Students Interested in the Wildlife Profession

As a scientific organization for professionals who manage and conserve wildlife and habitats, The Wildlife Society (TWS) is increasingly concerned about the lack of ethnic and cultural diversity within the profession. Diversity is essential for the profession to grow and meet a myriad of conservation challenges. The Indigenous community has enormous potential to enrich diversity within the wildlife profession.

The TWS Native People's Wildlife Management Working Group (NPWMWG) membership, composed of wildlife professionals and students, tribal and non-tribal, recognizes native peoples' cultural, spiritual, and biological connections to the land. TWS and the NPWMWG support the development of Indigenous wildlife professionals.

TWS believes that one of the most effective ways to support indigenous wildlife students is to give them the opportunity to attend TWS's annual conference. Therefore, TWS and NPWMWG announce the 2020 Native Student Professional Development (NSPD) Program.

How the NSPD Program Works: Individuals selected for this program will receive funds to help cover registration fees, lodging, meals, and transportation to and from the conference. Program participants will also receive a one-year membership in TWS and become members of the NPWMWG.

As TWS members, NSPD participants will receive the bi-monthly magazine *The Wildlife Professional*, weekly electronic newsletter *The eWildlifer*, free online access to TWS' journals, access to TWS' Member Directory, and more!

Would you like to attend the annual conference of The Wildlife Society?

The TWS annual conference is the largest gathering of wildlife professionals in North America. There, you can learn about cutting-edge research in wildlife biology, management, and conservation. The conference offers hundreds of paper and poster presentations, half-day and full-day workshops, field trips, and networking opportunities. Additional student activities include a career fair, student-professional mixer, and quiz bowl.

Find out more about the 27th annual conference here:
<https://twconference.org/>

Find out more about the NPWMWG here:
<https://wildlife.org/npwmwg/>

TWS thanks the Shakopee Mdewakanton Sioux Community, Sundance Consulting, USDA National Wildlife Research Center, U.S. Forest Service, and others for generous contributions to the NSPD Program.

If you would like to support this program, please contact Nick Wesdock at nwesdock@wildlife.org

Eligibility:

- Member of a Native American, First Nations, or Indigenous Tribe, or identify as Native Alaskan or Native Hawaiian/Pacific Islander
- Currently enrolled in an undergraduate or graduate program in a relevant academic discipline such as wildlife biology or ecology
- Display a record of academic excellence and a strong interest in pursuing a career in wildlife management or conservation

Students within 6 months of graduation are eligible. Qualified applicants will be evaluated by a panel consisting of the Chair of the NPWMWG, two other NPWMWG members, a TWS staff member, and representatives from other program partners.

Applications must include:

- Name, address, email, phone number, tribal affiliation, name of college or university
- Current level of study (undergraduate or graduate) and field of study
- Most recent *official* transcripts
- Essay (500-750 words) explaining why you would like to participate, how this program might benefit your career development, and how your personal and cultural experiences and skills contribute to the wildlife profession. Mention relevant extracurricular activities, societies, honors, or awards

Email all application materials to Ty Werdel
