Greetings Members

This year WY-TWS has several opportunities for folks looking to become active and not only help the Board and the Chapter but also help themselves with a bit of extracurricular career development. In addition to help plan and organize the annual conference that all of us enjoy, our Board meets regularly with Committee Chairs, Liaisons, and key people from other organizations to decide activities and actions that promote excellence in wildlife science, management, and policy.

Below is a list of BOARD MEMBER positions available for election this year and short description of each position:

President-elect (3 years): Lead planning and coordination of the annual conference (year 1, President-Elect); Ensure Chapter is meeting objectives (year 2, President); Help where you can (year 3, Past-President)
Secretary (2 years): Record Board meeting minutes and help keep the Board on task
Treasurer (2 years): Keep Chapter budget in check and submit annual reports
Board Member At-Large (2 years): Help where you can

All members with an interest in these positions are encouraged to run. Yet given the breadth of stakeholder types that influence the future of wildlife in our state, and to help diversify our existing Board and Chapter activities, we are especially interested in representatives from NGOs. **Nominations, including a short biographical sketch and picture of candidates, are due 1 OCTOBER 2020 to Ben Wise (bewise1@hotmail.com) or Eric Maichak (Maichak@hotmail.com).**

New Board members provide fresh ideas and individual strengths. So while you're out enjoying the vast expanse of Wyoming this summer, take a minute to consider one of these positions. Our Chapter is only as strong as its members. We need you.

Thanks and have a great summer,

WY-TWS Executive Board
