

WY-TWS/CMPS Joint 2020 Annual Conference!

We are excited to see you all (virtually) at the annual meeting on November 18th! The conference this year has been shortened and will be held in a single day, but will still be packed full of great presentations, engaging content, and exciting quizbowl questions! Additionally, the conference will be FREE this year!

We are thrilled to announce that we will have four invited presentations that will be talking on a diversity of ideas, critters, and systems. Drs. Wini Kessler and Selma Glasscok, Joshua Learn Rapp, Dr. Tony Goldberg, Dr. Viviana Ruiz Guterrez will each be giving presentations throughout the day. Additionally, we will be recognizing our award recipients and board members that are leaving us, introducing new board members, and holding both the CMPS and WY-TWS business/board meetings throughout the day.

We will send out a schedule with event times and a registration link for the zoom webinar in the next few weeks. We hope to see you all there on November 18th! Please visit the conference website if you have any questions in the meantime.
