Biometrics Working Group

Call for BWG Student Virtual Travel Grants for the 2021 TWS Annual Conference

Submission Deadline: September 1, 2021

The Biometrics Working Group (BWG) is pleased to announce its annual call for student travel grants. The purpose of the travel grants is to promote and support student interest in biometrics and the BWG. In response to the virtual format of this year's conference, the award will cover the cost of registration for the general conference and for any one workshop of the student awardee's choosing, for a total award of up to \$200.

Applicants must be students (graduate or undergraduate) and members of The Wildlife Society who are presenting papers or posters at the 2021 annual conference. Applicants do not need to be members of the Biometrics Working Group. Preference will be given to applicants who demonstrate strong statistical or mathematical skills.

To be considered for a student virtual travel grant, please submit the following material as a single PDF document:

1. Cover letter describing your interests in quantitative wildlife ecology (maximum 1 page)
2. Letter of support from a mentor, advisor, or supervisor
3. Abstract and title of the paper or presentation being presented at the meeting

The deadline for submission of travel grants is **September 1, 2021**. To apply, email Althea Archer at althea.archer@gmail.com with "BWG Student Virtual Travel Grant" in the subject line. Following submission, you will receive an email confirming receipt of your application. We aim to notify all applicants of our decision within a month of the submission deadline.
