SUBJECT: Recovering America's Wildlife Act - Thank You, Request for Action

Dear Chloe Cantor,

I'm writing on behalf of the Mississippi Chapter of The Wildlife Society to thank Senator Wicker for his support of the Recovering America's Wildlife Act (S. 2372) and to request the Senator's engagement in the upcoming Senate Environment and Public Works Committee hearing on the bill. (S. 2372).

As the Senator knows, the Recovering America's Wildlife Act will provide a path forward for cost-efficient and proactive conservation efforts to support our nation's most at-risk species, including many of those which we have in Mississippi. We would like to encourage Senator Wicker to attend the EPW hearing on December 8th and speak to the needs of our state's at-risk species.

As you are preparing for Wednesday's hearing, please feel free to contact myself at krisgodwin10@gmail.com (662-769-3798) or cmurphy@wildlife.org with any questions on the benefits of this legislation to our state. We thank you and look forward to working with your office on this important legislation going forward.

Sincerely,

Kristina Casscles Godwin
Past President
Mississippi Chapter of The Wildlife Society
