**Leadership Experience (professional and organizations):** Include position and describe leadership skills/knowledge developed (up to 5)

Currently manage the Department of Environmental Science and Forestry (25 employees) at The Connecticut Agricultural Experiment Station  
Was President of the Northeast Section  
Current Co-Chair of the TWS Certification Review Board

**Principal Professional Interests:** Limit of 25 words.

My professional interests include researching the role(s) of wildlife in tick and pathogen ecology to determine weakness to exploit for the benefit of public health.

**Views:** Limit of 250 words.

I would like to think that I am a hard worker and am a “tell it how it is” kind of a guy without sugar coating it. I expect nothing less of my colleagues telling me directly what they need and how we can come to an agreement to make things better instead of being stuck on an island of resentment and bad communication. This will ensure that we move the wildlife profession forward together so that we, and the wildlife we represent, are better for it.

**Photo:** Attach a “head and shoulders” photograph (ideally in .jpg, .jpeg or .tif format)

-----
